Comet News Items.

Mr K. H. Gray, L.L.B., of Halifax, N.S., is spending a week with his sister, Miss Gray, at Comet.

Miss E. Emerson, of Seeley's Bay, Ont., who had been visiting with her sister, Mrs. M. McKinley, for the past three months, has left for Lloydminster, where she has taken a position on the nursing staff of the Hospital at that place.

Frank Thill, of Aberdeen, Sask., is a visitor, this week, with Mr T. Graden.

Grain Stacks Burn.

On Tuesday afternoon, while Mr Gus Gitzel was moving his engine and separator to another setting of grain stacks on the Eberhardt farm, near town, a setting of wheat stacks caught fire, and were consumed, in spite of the efforts made to save them. The grain belonged to young Mr Philip Miller, who had the field reaped.

Stony Plain Masonic Lodge.

Meridian Lodge, A.F. and A.M., of Stony Plain, had work in the first degree, on Tuesday evening, the 27th. Two candidates were conducted thru the mysteries of this degree, the local Lodge being assisted by representatives of the different Masonic Lodges in Edmonton.

The W. I. Convention.

A goodly number of delegates were present on Saturday afternoon last, at St John's School-house, Spruce Grove, when the Women's Institutes of Stony Plain Constituency held its annual meeting, with Miss Gobielle in the chair. Reports were read from the secretaries of the various branches, and some discussion took place on these. Miss Short presented the report for Woodhead; Mrs. Welburn for Winterburn; and Mrs. Malloch for Stony Plain.

A very interesting address was made by Mr Whiston, of the Provincial Department of Health, on the subject of municipal hospitals.

Nominations for Constituency Convener being called for, Miss Gobielle invited Mrs. Gates of Stony Plain to take the chair.

Miss Gobielle of Winterburn was elected Convener by acclamation.

Chairmen for the various departments were appointed as follows:

Stony Plain—
Publication, Mrs. Kowensky.
Legislation, Mrs. Wood.
Publicity, Mrs. Malloch.
Winterburn—
Emigration,
National Events and Child Welfare,
Nationalization, Mrs. Welburn.

Woodhead—
Home Economics and Agriculture, Mrs. Church.
Mrs. Ethel Reese Burns of Edmonton and Mrs. Russell Wood of Stony Plain gave two readings, which were enjoyed by the ladies.

Mrs. Gates then gave a short talk.

Following this, the ladies of Winterburn Institute served a dainty lunch.

The ladies from Stony Plain attending were, Mrs. Willis, Mrs. Lundy, Mrs. Lory, Mrs. Gates, Mrs. Umbach, Mrs. Wood, Mrs. Kowensky, Mrs. Malloch, Mrs. Hy Oppenheimer, Mrs. Luckett, Miss Lalonde, Miss Ashcroft, Miss Hartley.

There were over 50 members and guests present at the meeting. We should have the meeting next September.

LOCAL NEWS.

Mr and Mrs Henry Enders and family arrived back on Friday last from Vernon, B. C., and are occupying the Hutchison house on Fifth street.

Mrs C. A. Gates left Monday for the Peace River District, on work in connection with the Alberta Women's Institutes.

Mrs Shreeves, who was taken ill on Saturday last, is still under the doctor's care.

Mrs Philip Schrum was taken in to the Royal Alexandra Hospital in Edmonton last week, for treatment.

Messrs Watson and Duncan have taken charge of the Maisenko farm, in the interests of the Soldier Settlement Board.

Mr Ferd Horn and wife, who had been spending the summer on the Coast, came back to Stony last week. Mr Horn expects to go into business again, in this town.

Mr Hardwick has acquired an automobile.

Mr Shearer left this week for Stettler, to engage in building operations.

Mr McColl left Friday for Saskatoon. On his return, he resumes his studies at the University of Alberta.

Dr Millar, Dentist, will be in Stony Plain on Oct. 5 and 19.

J. T. Moore, representing The Edmonton Journal, was in town Tuesday.

Members of the Minstrel Troupe met in the Town Hall on Monday night.

U. F. Local will hold its regular monthly meeting on Saturday evening next, in the Town Hall. The request is made that all members be present, as delegates to the Convention will be chosen.

Posters at the Grand Trunk station announce a change in the train service, commencing Sunday next, Oct. 2.

"The accounts in connection with the recent Chautauqua have now been made up and a sum of \$11.00 is required from each guarantor to make up the deficiency."

Mr Philip Miller grew a nice bunch of Ruby wheat this season on his farm east of town, which graded No. 1 Northern when brought to the elevator.

For "being in illegal possession of a mash for the manufacture of alcoholic liquor," Mr Troutman was fined \$200 in Edmonton last week.

Stony Plain Town Council will sit as a Court of Revision on the Local Improvement assessment (the new concrete sidewalks on Main street) at the Town Hall, on Tuesday, Oct. 4, at 8 p.m., to hear appeals.

The Town Hall was well filled Sunday afternoon, when Mr A. Yuill, of the Bible Students, Edmonton, began his lecture. He took for his text "Millions Now Living Will Never Die," and gave numerous quotations from the Bible to prove his statements. So many are taking an interest in the Sunday lectures, another will be held here shortly.

STONY PLAIN, ALBERTA.

The West and Redistribution

It is altogether probable that, even before the present issue of this paper reaches its readers, the Dominion Parliament will be dissolved and writs issued for a new Parliament whose legal span of life will run until 1927, unless, because of some exceptional circumstance, it is deemed advisable to consult the people before that year.

In compliance with the terms of the constitution of Canada a census of the population was taken in the month of June last. It is also provided by the constitution that upon the completion of such census the representation of the several Provinces in the House of Commons shall be readjusted in such manner as to give to each Province equality of representation based on population such readjustment representation to become effective upon the termination of the then existing Parliament.

It is admitted by all people in Canada, from Premier Meighen down, that that portion of Canada west of the Great Lakes will be shown to be entitled to a larger representation than it now enjoys, and the fact is equally well recognized that Canada east of the Great Lakes will not be entitled to quite as many representatives as it now has.

Nevertheless, although it would require only a few months more to compile and tabulate the 1921 figures of population and thus make possible an early and fair readjustment of the representation of the Provinces in the House of Commons, Parliament is hastily dissolved, although no new or sudden issue has arisen, and writs for a new Parliament issued which will result in Canada for the next five years being governed by a House of Commons which is not truly representative of the country.

The action taken may be constitutional within the strict meaning of the law, but it seems a violation of the spirit of the constitution. Yet it is not the first time this has happened in Canada. In fact ever since the population of the West began to increase so rapidly, while the population of Ontario and the Maritime Provinces failed to keep pace with Quebec's increase in population, there has been a tendency at Ottawa to precipitate general elections in the year of the census taking right on the eve of redistribution but before making it effective.

Let us take a historical glance back over the past thirty years and the last three census enumerations. In 1891 the House of Commons consisted of 215 members representing the Provinces as follows: Ontario 92, Quebec 65, Nova Scotia 21, New Brunswick 16, Prince Edward Island 6, Manitoba 5, British Columbia 2, and the Territories 1. This was a census year but instead of a redistribution bill being passed before the close of the session, Parliament was dissolved, the issue being Reciprocity with the United States. It was not until five years later that the country secured the benefits of the readjustment which was really due in 1891.

The next census came in 1901, but a general election had been held the preceding year, but as the result of the previously delayed redistribution Ontario was entitled to only 92 members instead of 92, the three Maritime Provinces lost 5, while Manitoba doubled its quota from 5 to 10, the North West Territories from 4 to 11, and British Columbia added one. In 1906 the new Provinces of Alberta and Saskatchewan were created, Saskatchewan being given 16 members and Alberta 7. This additional representation became effective in 1908.

While the figures of the census of 1911 were being tabulated, Reciprocity with the United States again became a live issue and an Agreement signed with the United States before Parliament for ratification. Strong opposition developed in Eastern Canada and the Opposition obstructed and blockaded the passage of the bill. The Government thereupon appealed to the country, and once again the West was deprived of its rightful representation on a question in which it was vitally interested, while the East was allowed a representation to which it was not justly entitled.

War broke out in 1914 and by agreement the life of the Parliament elected in 1911 was extended and it was not until 1917, therefore, that the country secured the benefits of the representation to which they were really entitled in 1911. That long delayed readjustment further reduced Ontario's representation to 82, a loss of 10 members in two decades; Nova Scotia dropped to 16, a loss of 5 in the same period; New Brunswick fell to 21, a loss of 5; P.E.I. to 3, or only one-half what it had in 1891. On the other hand Manitoba increased to 15, or three times its representation in 1901; Saskatchewan got 16 and Alberta 12, as compared with 4 for the N.W.T. in 1891; British Columbia was accorded 15 as compared with 6 in 1891; and the Yukon was given one.

In other words, although the membership of the House of Commons only increased from 215 in 1891 to 234 on the strength of the census of 1911, the representation west of the Great Lakes rose from 15 to 57, while the representation east of the Great Lakes fell from 200 to 177. It is generally agreed, both East and West, that the same evolution in the political power of the country is taking place, that the representation of the West will be increased and that of the East decreased when the final figures for 1921 are tabulated. It means that for one-half of the whole period during which the readjusted representation should be in effect the West will be under-represented.

Scottish Castle Sold

Has Secret Chamber and Walls Ten Feet Thick.

Viscount Cowdray has bought the estate of Castle Fraser, Donaldu, Aberdeenshire, for £18,000. Castle Fraser is reputed to be one of the finest specimens of the Flemish style of architecture in Scotland.

The castle has a secret chamber in which the master of the house could overhear the conversation of his guests in the dining hall. This is supposed to have suggested to Sir Walter Scott a similar convenience in "The Fortunes of Nigel." Walls throughout the building, which stands upon arches, are from 6 feet to 10 feet thick.

Many Uses For Paper.

In the art of making and using paper we are not in line with the Chinese and other Asiatics, who not only make the finest paper in the world, but apply it to all sorts of uses, making window panes, umbrellas, fans, sandals and even clocks and garments of it.

The Many-Purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

A Disappearing Island.

One of the most famous of disappearing islands is Expedition Island, situated off the northwest corner of Australia, and which was visited as lately as 1892. Today it has disappeared, and is now fifty feet below water. The island was 43 miles long and famous for its beauty.

"I see ye have a new hired man, Ezra," said Eben Potter. "How is he doing?" "Heating considerable cooler than the other one did, thank ye!" replied the disgruntled farmer.

Keep Minard's Liniment in the house

A Growing Union

Movement in Progress to Extend Union of South Africa.

The Union of South Africa, over which General Smuts presides, contains four provinces, but is only a third larger than British Columbia, or two-thirds the area of Quebec. The movement now in progress for the annexation of the colony of Rhodesia, at present administered by the British South Africa Company, would nearly double the area of the Union by adding 450,000 square miles to the 475,000 now administered by the Union Government. It would add 1,500,000 to the native population, with some 40,000 Europeans.

The Government of Mr. Smuts is also administering the former German protectorate of West Africa, an estate of 320,000 square miles, with a small European population and several hundred thousand natives. The number of the natives was greatly reduced, and some races nearly exterminated during the German occupation. General Smuts is thus likely to have under his jurisdiction 1,500,000 square miles of territory, with a 600 square miles of territory, with a total population not much less than that of Canada.—The Daily Province.

BARELY LIVED THROUGH IT

A terrible experience had Edw. J. O'Connor, of Sault Ste. Marie, from which he writes: "I have been a constant sufferer from Asthma and Catarrh. My nose and throat was often stopped up, and I had disagreeable droppings from my throat. When an attack of coughing came on, it seemed as if I would barely live through it. I would snap for breath. Catarrh made me well. It's soothing healing action was exactly suited to my condition. After three months treatment, one dollar, smaller size 25c and 50c at all dealers or The Catarrhose Co., Montreal.

Snub From Argentine Government.

A Reuter's message from Buenos Aires states that the Argentine Government has declined to receive Laurence Glaneth officially as the representative of the "Irish Republican Government." The Foreign Minister, however, received him at his residence in a private capacity.

DELICATE GIRLS
NEED NEW BLOOD

Rich, Red Blood Means Health and Strength.

The anæmia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-door exercises and not enough rest and sleep.

It comes on gradually, beginning with languor, indolence to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the pallor of the face, headaches, dizziness, following a stooping position, frequent backaches and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become more serious, but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drugs, are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement begins with the first dose. As the blood is made rich the pallor leaves the face, strength and activity gradually return, and the danger of relapse is very slight.

If any symptom of anæmia appears, a prudent suggestion is that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will their action improve the blood. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from 'The Dr. Williams' Medicine Co., Brockville, Ont.

Barcelona Has 717,000 People. The recent census shows that the population of Barcelona is now 717,000, an increase of nearly 150,000 over 1910.

A Pertinent Question

Why Did Kaiser Run If Troops Were Never Vanquished.

With his old-time grandiloquence the former German Kaiser sent a message to the Junker meeting held by his son and Ludendorff in Berlin recently, in which he exclaimed: "With proud and warm gratitude I thank today of my brave comrades, never vanquished in the field." But if they were never vanquished in the field why is it that the pulsant partner of "Me and God" so unconsciously skeddaddled from the field and scurried into hiding? Holland, whence he has never dared poke his head across the border since?—Louisville Courier-Journal.

Killed By Blood Poison

Used an old razor for paring his corns. Foolish because 25c buys a bottle of Putnam's Painless Corn Extractor which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam's." Refuse a substitute, 25c everywhere.

Rooms With Baths Are Scarce.

In London and Paris there are several hotels which have rooms with private baths, but there are very few bathrooms in the average European hotel. It is always an extra event when used with cold water. Hot water is difficult to obtain in winter, and in some hotels, where it is worked by a slot machine attached to a gas meter, the guest has to feed it with 25 cents for every quart of water.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Steel Shipped By Airplane

Was Required in a Hurry For London Depot.

Two cwts. of steel were conveyed from Manchester to London by aeroplane for use in connection with the completion of the steel work construction of the new depot of the London General Omnibus Company at Chiswick, W. The aeroplane, an Avro, was chartered by Lambourn and Co., Ltd., Victoria Steel Works, Openshaw, Manchester, who are responsible for the work, the steel being urgently required for certain vital parts of the building. The machine left Manchester at 9 a.m., reached Croydon, London, at noon, and by about four o'clock the steel was in position at the new depot.

A Remedy For Earache.—To have the earache is to endure torture! The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Hutchinson, Kas., claims to be the largest exclusive hard wheat market in the world. Nearly 100,000 bushels of hard wheat will be marketed through the Hutchinson elevators this year.

Ask for Minard's and take no other

Industrial Ontario

Has More Than 50 Per Cent. of Dominion's Manufacturing Plants.

Ontario is the richest province of Canada. Of the Dominion's wealth, estimated at \$2,801,000,000 for the year just past, Ontario's share was \$1,267,000,000. Consistent with the remainder of the Dominion, agriculture asserts its superiority over other lines of activity and maintains the premier place in provincial assets. Ontario is, however, the first industrial province of Canada, considerably more than fifty per cent. of the product of the Dominion's manufacturing plants being attributable to this province.

Minard's Liniment Lumberman's Friend.

W. E. Lord, 23 years old, captain of a steamship of the Baltimore Steamship Company, is one of the youngest skippers on the Atlantic coast. Captain Lord is a native of Springfield, Mass., and first went to sea when he was 16 years old.

Dyed Her Draperies
Also a Faded Skirt

"Diamond Dye" adds years of wear to worn, faded skirts, waists, coats, stockings, sweaters, curtains, hangings, draperies, everything. Every garment comes directly, fades, colors into her own work, for draperies even if she has never dyed before. Just buy Diamond Dye—no other kind—your material will come out right, because Diamond Dye is guaranteed not to stain, spot, fade or run. Test your druggist whether the material you wish to dye is wool, silk, or whether it is linen, cotton, or mixed goods.

The fool shoosh his neighbor's hens from his backyard, but the wise man fixeth up a snug place for them to lay in.

LETTER FROM
MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery.

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do any work, and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."—Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of letters for that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Re Competition in Stony Plain School Fair.

In the recent School Fair held at Stony Plain, on September 14th, some trouble was experienced as to the manner in which pupils of the Stony Plain Consolidated School was forced to compete. This condition of affairs exists because of no fault of the school here, but on account of a ruling of the various Departments under which the Fairs are held—viz., School of Agriculture at Vermilion; Department of Education, Edmonton; and the Stony Plain School Fair Association.

If those interested in the way that the points are summed up in order to award the diploma will be good enough to take into consideration the way Stony Plain Consolidated was handicapped, the situation will no doubt be made much clearer.

Rule 10 of the Fair conditions reads: "In schools of more than one room, each room shall count as a school."

Thus it can easily be seen how the school here had to exhibit under a great handicap.

In the competition for Class 40, which reads: "To the school having the best exhibit at the Fair, a Diploma will be presented by the Alberta Department of Agriculture," Stony Plain Consolidated was like a house divided against itself. There was no way but to exhibit as five separate schools, even if there were only eight grades exhibiting.

Even if there are eleven grades here, the Fair is for the junior grades up to Grade 8, as the senior grades could only enter in two classes, with the other grades in competition.

The efforts of the teachers were spent in doing work for the Fair that would be competed for, by the other Grades in the same school, and thus would, of necessity, cut down the number of points each room, or school as they were classed, could obtain.

For example, the Primary room had to compete against the upper grades and also against a rural school which contained from four to eight grades, because they were classed as a "school" by the officials.

Again, the senior grades, which could only get into two classes of competition because of the way the prize list is made out, were compelled to compete against a school which could enter all the classes. It was thus deemed fair by the officials that this should exist.

The various rooms here, none of which contained more than three grades, were forced to compete against a school which by reason of its one room could enter every class.

Does the calling of each room a "school" seem a fair basis on which to award the diploma, as Rule 40 (School Competitions) states?

For all this, taking the five rooms and calling them, combined, a "school," Stony Plain Consolidated took by far the largest number of points; but did not get the diploma, as it is not possible for any one room to enter enough classes to compete successfully against the other rooms in the school and outside schools as well. No matter how many prizes were taken here, they were divided among five rooms; so the total for any one room or "school," as it was classed, would be quite small.

The diploma went to Golden Spike Senior Room, with a total of 121 points. Their Junior Room probably took about 30 points, making a total of 151 points.

The most points gathered by one room of Stony Plain Consolidated School was 59, but taking the five rooms as a school the total was 207 points.

It is true that the diploma went to a school of more than one room, but the division in the winning school takes place at Grade 5. In the local school the divisions take place at Grade 1, Grade 3, Grade 5, Grade 8, Grade 11, so there are not enough classes for any one room to enter to get the diploma.

Suppose, for example, Grades 6, 7 and 8 should enter enough classes to get the diploma. In all probability entries in the same classes would be made by Grades 4, 5, 9. It is also just to think that the work of the higher grades would be better and would take the largest number of point winning prizes, thus splitting the points between two "schools," as it were, yet being in the same school. Should the work of the primary room taken as a "school," be supposed to be as good as that of higher grades?

There is no ill-feeling towards the school winning the diploma whatever, and Golden Spike is to be heartily

(Continued on Page 6.)

What Bill Thinks.

Senator W. A. Griesbach, until last week the member for this Federal Constituency, returned last week from Ottawa, and states that the utmost confidence prevails in Government circles at the Dominion Capital regarding the outcome of the Federal elections.

The newly-appointed Senator asserts that there has been a most pronounced swing thruout the country toward the Government side within the last few weeks, and the general belief in political circles in the East is that the Meighen Administration will come thru the election with the strongest representation of any of the groups competing for power.

The rumor circulated some time ago that Hon. Duncan Marshall would run in West Edmonton proved to be erroneous, as he is now slated to run in East Edmonton, against H. A. Mackie, the present member.

This leaves West Edmonton open for that old war horse, Hon. Frank Oliver, who will no doubt give a pretty good account of himself in the contest, if nominated.

Apply Chas. H. Holling, Stony Plain, Alta.

Terrific Explosion Wrecks Chemical Plant At Oppau, Germany

"Mayence.—A great explosion at the chemical products plant of the Badische Anilin- und Fabrik Company at Oppau, on the Rhine, wrecked the town and spread death and destruction on every hand. The number killed is variously estimated at from 1,000 to 1,500, and the injured close to two thousand. One report says that there were 3,000 men on the spot at the moment of the explosion and it is believed that about half of these were killed.

The town of Oppau is a scene of utter desolation, more than a third of the houses having been completely demolished, while the roofs of the others were swept off as if by a whirlwind. Here also many were killed or injured.

The explosion is attributed by some to excess pressure in gasoline meters, the whole of this part of the works being literally pulverized. Where the gasometers stood is now a funnel shaped hole 120 yards wide and 45 yards deep, while twisted girders and debris of every description lie scattered about. For a distance of several hundred yards, not a wall is left standing.

The directorate of the company is quoted as saying that the explosion occurred in a storehouse containing four thousand tons of nitrous sulphates, which had previously been examined and was believed to be free from danger of explosion. All the workmen's dwellings in the city were razed to the ground. At Mannheim, on the opposite side of the river, 35 persons were seriously injured and two hundred or more suffered minor injuries. Ludwigshafen reports say that three workmen's trains were buried under the wreckage, and many children on their way to school in that town were injured.

Mayence.—A late statement issued by the management of the Oppau factory says that the explosion occurred in a reservoir containing 200 tons of ammonium sulphate. It adds that all necessary precautions had been taken during the process of manufacture and storing the product, so that an explosion appeared impossible.

Russian Scouts Ask For Famine Aid

Send Appeal For Starving Children to Canadian Scouts.

Chita.—The Russian boy scouts are sending a message to the Canadian scouts appealing to them to organize famine aid. Many children have been sent here from the Volga country this month. They will be supported among private families as the Chita Government is not able to provide for them owing to its lack of funds.

The children coming from the interior of Russia brought a little food with them. An analysis of their bread shows that it was made of a mixture of sorrel, grass and a trace of bran.

According to reports received here in the ten governments in the valley of the Volga there are 50,000,000 persons starving.

Food Is Cheaper In England

Shopkeepers Also lowering Prices of Dry Goods.

London.—While the general tendency of retail prices in England is downward, complaint has been made that the licensed victuallers are now charging more for beer and whiskey although the cost of brewing materials has decreased. Shopkeepers are generally lowering their prices of food-stuffs and dry goods in consequence of the announced drop in current wholesale quotations.

In many cases this means a sacrifice of profit on the retailers' part, but it is pointed out that many of the retailers who are most reluctant now were among the first to mark up their existing stocks when prices were rising.

Plan To Reclaim Lands In B. C.

Would Bring About Thirty Thousand Acres Under Cultivation.

Recently there appeared in the press a despatch from Victoria, B.C., stating that at a joint conference of the drainage officials of the State of Idaho and the Province of British Columbia, an agreement had been entered into which would assure final up investigation work to determine the feasibility or otherwise of draining 60,000 acres of land in the Kootenay River Valley, approximately half of which area lies in Idaho and the other half in British Columbia.

Looking solely at the 30,000 acres on the Canadian side of the boundary line, to the average prairie dweller the bringing of this area—less than 50 sections—under cultivation is a matter of hardly more than passing moment; in many parts of the west the swinging of such a project nowadays would get scant attention except for local publicity purposes.

In British Columbia, however, where 30,000-acre tracts of continuous agricultural land of outstanding fertility is very much the exception, rather than the rule, the probability of ultimately bringing such an area under production is attracting almost province-wide attention; in some measure due to the fact that the to-be-reclaimed lands are located in the very heart of a territory that rather badly needs agricultural products of the sorts this overworked territory can produce in both quantity and quality.

The cause of this annual overflow of the lake is simply a matter of too large an intake of water and too small an outlet for the spring floods. The Kootenay River, with its tributaries, draining the whole of the western slopes of the Rocky Mountains in B.C. and the Selkirk ranges, after a bold sweep southward running into the United States as far as Bonanza, Perry, Idaho, from that point turns directly north again to B.C. and Kootenay Lake. At the same time the Lardo River and others run into the lake at the other end and the combined volume of water passes out toward the centre of the lake by a passage called the West Arm, like the downward stroke of a gigantic T, past Nelson and Bonington Falls to join the Columbia River.

The reclamation has solely to do with the enlarging of the lake's outlet. In 1912 a preliminary survey was made by Engineer Muirhead, who in his findings reported favorably on the project but asked for a more thorough examination of the whole territory before making a final decision. With the outbreak of the war the next year the scheme was, for the time being, abandoned. American engineers have also spent two seasons on the work, and their report made public

two years ago, was strongly in favor of the work being proceeded with, the estimated cost being a little over \$2,000,000.

The land is in one of the older settled parts of B.C. interior, already supplied with railway communication by the Crow's Nest line, has good highways, educational facilities and every modern convenience, so that the province would be at no expense in providing these. The ranch lands surrounding this to-be-reclaimed area is one of the finest fruit areas in all B.C. The climate is ideal.

The entire area in B.C. is government-owned land, and the Board of Trade at Creston which for years has been urging its reclamation expects the provincial lands department—if the lands are drained—to adopt a policy of selling the tract in not larger than 40-acre farms to bona fide farmer-settlers, at a price that will just nicely suffice to meet the full cost of draining the area. As to the cost of the work it has been agreed that the U.S. and British Columbia interests will pay this pro rata on the basis of acres reclaimed.

Veterans May Organize Legion

Organization Would Mean a Unity of All Members.

Toronto.—The Canadian Legion of Veterans which is designed to form a medium through which all Canadian ex-service men and women may unite as members of one veteran's organization becomes a definite unity as a result of action taken at a recent meeting of the provisional committee. Voted to proceed with the organization of the legion, they at the same time stipulated that "such organization should constitute only a holding body 'until such time as amalgamation becomes an accepted fact'."

Liner Teutonic Sold.
London.—The Teutonic, the big White Star liner, which for upwards of 30 years was engaged on Atlantic passenger service, has been sold to a Dutch firm and is being taken to Rotterdam to be broken up.

British Government Charges Russian Soviet With Breach Of Faith

Canadian Loan To China

Agreement Recently Signed Has Raised Important Issues.

London.—The Times correspondent at Peking says that important issues have been raised in the agreement recently signed by which a Canadian banking syndicate will lend the Republic of China \$3,000,000 gold against one-year bonds, secured on various enterprises. It is noted that the discount and interest give a return to the Canadian investors of a rate exceeding 20 per cent. per annum. The correspondent says that the transaction seems to be in order except that the consortium of the powers formed to regulate the question of a loan to China has not been consulted and that the loan is a direct negation of the British Government's policy in China.

It is pointed out, however, that the Canadian Government is not a party to the consortium agreement between Great Britain, United States, France and Japan, and may feel under no obligation to observe its terms. Nevertheless, foreign parties to the consortium will naturally take the view, says the correspondent, that if the Canadian loan goes through, the British Government will be subscribing to one policy with the right and totally different policy with the left. The consortium agreement must end if all parties to it do likewise.

Disorders In Vienna

Crowd Incensed At Profiteering In Foreign Exchange Values.

Vienna.—Serious disorders occurred in this city following the closing of the bourse. Many rushes were made upon the entrances to the building, but these were checked by the police. The crowds then wrecked the shops of several money changers in the vicinity, while a few men suspected of speculating in foreign exchange were dragged from their automobiles and beaten.

Impromptu mass meetings were addressed by speakers, who declared the bourse would be closed permanently if profiteering in foreign exchange values did not cease.

Will Not Visit Canada.

London.—There is no question as to the Prince of Wales visiting Canada on his return journey from the tour of India which will follow the same route homeward as on his outward voyage, namely, via the Suez Canal.

Warns Irish Taxpayers.

Belfast.—Irish Republican authorities have warned the people of some of the districts of Ireland to refuse to pay income taxes to British collectors until the Dail Eireann has reached a decision on that subject.

London.—The British Government has despatched a strongly-worded note to Moscow calling the attention of the Soviet Government to alleged breaches of faith involved in the purchase by the Russians throughout Central Asia and Afghanistan of a campaign of intrigues hostile towards Great Britain. An explanation is demanded.

The note details fully the alleged hostile acts complained of. Most of them were in Afghanistan.

The note, which was written by the foreign minister, Earl Curzon, details a number of flagrant violations of Russia's undertaking under the trade agreement with Great Britain to cease anti-British propaganda and particularly enumerates the activities of the Third International of Moscow in India and Afghanistan, quoting in substantiation thereof a statement by M. Stalin, president of the eastern section of the Third International, urging the eastern secretariat to devote itself to undermining the external power of England and France.

The gravest charge pertains to the Russo-Afghan treaty and M. Chicherin's insistence upon a clause in this treaty providing for the opening of consulates in Eastern Afghanistan. Lord Curzon says the Government possesses indisputable evidence that these treaties are regarded by the Soviet Government as prospective centres of propaganda and "also have evidence of the activities of Jamal Pasha sent to Afghanistan by the Soviet to provide the hostile tribesmen with funds, arms and ammunition. The British foreign secretary asks for definite assurance that these activities, constituting breaches of the trade agreement, shall cease.

The note declares that the Soviet used every persuasion to prevent the Angora Government from arriving at a peaceful solution with the Euxine powers and assembled considerable forces on the borders of Anatolia, suggesting that they should be sent into Anatolia for the support of the Kemalists.

Fire Destroys Lumber Stocks

Loss of Ontario Company Will Be Heavy.

Ferry Sound, Ont.—Fire destroyed the mill and lumber stocks of the Conger Lumber Company, as well as a large number of boats, canoes and boxhouses, along the waterfront. For a time the town itself was threatened with destruction, but the wind that blew from the southeast aided the fire-fighters.

Besides the mill and machinery, the loss includes six million feet of lumber, four million pieces of lath, pilers, slabs or other mill products, as well as barns, stables, dwellings, tramway and railway spur lines. The extent of the loss, which has not yet been estimated, is partly covered by insurance. About eighty men will be thrown out of employment.

Five Days On Wreck

Fisherman Rescues Woman, Sole Survivor of Sloop.

St. Vincent, Windward Island.—A woman passenger was the sole survivor of the sloop Coronation, wrecked while bound from St. Lucia to Grenada. The sloop encountered a terrific storm September 8 and was demasted. The woman remained clinging to the hull after all the others had been swept away. Drifting through high seas, the vessel finally stranded on a reef on the Grenadines, and after five days in her perilous position the woman was observed by a fisherman, who rescued her.

Canadian Navy In N.B.

St. John's, N.B.—The cruisers Aurora, Patriot and Patricia, and submarines CH-15 and CH-16, members of His Majesty's Canadian Navy, arrived in this port from Halifax and docked at Sand Point, West St. John.

Soil Fertility and Soil Fibre.

Of unusual interest to the farmers of Western Canada is the publication relating to Conservation of Soil Fibre and Fertility just issued by the Commission of Conservation. This pamphlet contains a series of papers and discussion by leading authorities on the problem confronting the prairie farmer. Particular attention is paid to the control of soil drifting, the retention of moisture and crop systems for drought areas.

The purpose of this publication is to place before the western farmer the results of the experimental work conducted by the Dominion and Provincial Departments of Agriculture, and by the Agricultural Colleges, in their efforts to determine the cropping system and methods of cultivation most suitable for the various prairie areas, particularly those which have suffered most severely from soil drifting and from drought.

Copies of this pamphlet may be obtained free on application to the Commission of Conservation, Ottawa.

Re Competition in Stony Plain School Fair.

(Continued from Page 3.)

congratulated on the large and splendid number and quality of its exhibits.

This is only being written in order that the public may know why the diploma will not have very much chance of coming here.

The Fair is very often called the Stony Plain School Fair; yet it is arranged so we have very little chance at the diploma.

If the ruling is to remain, why not split this school as, say Grade 5, or put a shield or diploma up for competition to the school having the largest and best exhibits regardless of the number of rooms?

If this is done, the public will be truly shown and convinced that the Consolidated School can and will put work on exhibition that will reward the teachers by giving something in return for their efforts, and will be a spur to urge them on to put their best into the Fair work; for, at the present, it is very probable to appear to the public that our town school is being put in the background, and that the work is not on a par with the work of the smaller schools.

This is not so, as a look back at the number of points taken by this school will show.

World Happenings Briefly Told

The Lord Provost of Glasgow has repented the fund for the purpose of paying rents of the deserving unemployed.

The Shanghai Day and Night Bank has been organized on the plan of remaining open for business until midnight.

An Avro airplane in good condition was sold in Uitenhage, S.A., on a court-order, for \$145, the highest bid offered by a Port Elizabeth firm.

A large twin flight airplane shed, which is said to have cost more than \$150,000, has been sold at auction in London for \$325.

Rumors that King Christian of Denmark is shortly to pay an official visit to the United States are unfounded.

Teaching in England and Wales has become more popular since the end of the war. The Board of Education reports 600 more teachers enrolled this year than last.

Thomas Sullivan, arrested for breaking into the store of the British and Foreign Bible Society, Cape Town, and stealing a Bible, was sentenced to three months imprisonment.

The staff committee of the League of Nations has adopted the proposal of Sir George Perley that the staff should be recruited, with fair proportion, from all the countries that are members of the league.

The Workers Dreadnought, Sylvia Pankhurst's paper, is not going to stop publication, as previously announced. Miss Pankhurst has stated that she will continue the paper as she has been successful in raising the £500 necessary to carry on with.

Reuter's correspondent in Bombay says that the news of the arrest of prominent agitators in Bombay and Sindh was received quietly throughout India. There were a few slight disturbances in Bombay, but these were confined to the smashing of tram windows.

The Man Who Said: "The proof of the pudding is in the eating"— was only half through

He started a good pudding-proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

"There's a Reason" for Grape-Nuts

Choosing Future Queen

Prince of Wales Will Not Be Forced Into Matrimony.

The public never tires of providing the Prince of Wales with wives; it is a favorite amusement not only with women but with men. I was told in confidence who the embryo Princess really is the other day. I shall not betray the confidence, but may say it is a girl whose engagement to quite another young man will soon be announced. Yet I was assured the information came from a member of His Royal Highness's household direct to my informant. So much for social tips, which are about as reliable as racing tips. The Prince is not going to be either hurried or coerced into matrimony. When the announcement of his engagement is made it will be sudden and surprising—we may be sure of that—and it will not please everybody!—Belfast Weekly News.

RHEUMATISM! Is Yours Acute or Chronic?

In other case you'll get such results from good old "Nervine" which has five times the pain destroying power of ordinary remedies. Nervine gives results because it penetrates to the source of the pain, because it contains ingredients that destroy rheumatic pain. It is the unusually bad case that proves the power of Nervine. Suits for young and old; used internally and externally for many purposes, 35c at all dealers.

World's Finest Diamond

Was Given to King Edward by Transvaal Government.

The largest diamond in the world is the Cullinan diamond, given to King Edward by the Transvaal Government in 1907. The stone was presented to King Edward in token of the loyalty and appreciation of the people of the Transvaal for the bestowal of the constitution on the colony. It was unearthed at the Jaegersfontein mine, Orange River Colony, South Africa, in 1905. In its rough state it weighed 3,025 carats, or 1 1/3 pounds. Amsterdam diamond cutters made nine large stones and several smaller ones from it. The largest still weighs 516 1/2 carats and is said to be the most valuable and brilliant diamond in human possession today.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Ginifex, a merchant of Khabarovsk, has the reputation of being the greatest bear hunter in Siberia. He is 65 years old and recently killed his seventy-seventh bear.

For Hair And Skin Health Cuticura Is Supreme

The morbidity of skin and scalp troubles is the sign of a general condition. Cuticura is exclusively for all skin troubles. On the scalp, it cures itching, dandruff, and pimples or dermatitis. Apply a little Cuticura Ointment to the scalp and wash with Cuticura Soap. Cuticura Soap cures the skin and overcomes every perspiration. Delicate, delightful, dandruff. Soap 25c, Ointment 25c and 50c. Taken 25c. Sold throughout the Dominion, Canadian Depot: 241 St. Paul St., W. Montreal. Cuticura Soap always without soap.

Error in Report

A discrepancy of 100,000,000 bushels in the crop yield estimate of the Dominion Bureau of Statistics is revealed by officials of the Saskatchewan Co-operative Elevator Company. Quoting the estimated wheat yield for the Dominion this year as 294,000,000 bushels, the Dominion Bureau's report says that the total may be greater than the aggregate in 1915, which by the Bureau's own figures was 393,000,000 bushels.

A MOTHER'S ADVICE

Once a mother has used Baby's Own Tablets for her little ones, she is always happy to recommend them to others. Her advice, given after a careful trial, can be readily followed with assured good results. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and sweeten the stomach. They always do good—they cannot possibly do harm even to the youngest babe. Concerning them Mrs. P. Laforest, St. Nazaire, Que., writes:—"For three months my baby was constipated and cried continually. On the advice of a friend I gave him Baby's Own Tablets and now at the age of five months he is perfectly well and weighs twenty pounds. I am delighted to be able to advise other mothers to use them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A Chicago woman destroyed her husband's clothes in a fit of passion. He complained of her; she was arrested and fined, and he had to pay the fine.

Catarth

Catarth is a local disease greatly influenced by constitutional conditions. FATALITY CAUSING MEDICINE. Tonic taken internally, and sets through the blood upon the source of the disease. CATARTH MEDICINE assists Nature in restoring soil condition. Nature is the great healer. Circular free. Dr. J. Chesney & Co., Toledo, Ohio.

Canadian Wool Has Good Reputation

High Quality Appreciated by States and Overseas Markets.

A virtual revolution has been wrought in the wool industry of Canada in the past few years. Whereas but a short while ago the wool produced in Canada was offered for sale in such an unsatisfactory state that the Canadian manufacturer looked with indifference upon the home-grown product, today he realizes that Canadian wool compares favorably with that of any other country and more than half of the domestic production finds its way to Canadian mills. Not only is the high quality of the Canadian product appreciated locally now but in the United States and the overseas markets it is now generally recognized that Canadian sheepmen are producing wool the equal of similar classes and grades grown elsewhere in the world. Gradually but surely a reputation has been built up for Canadian fleece wools on the domestic and foreign markets.

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent, he will give first preference to Canadian-made goods when making purchases. He will also stand loyally by his local dealer.

Mindard's Liniment used by Physicians

W. N. U. 1387

Gingham and Cretonne United

By Marie Belmont.

This youthful frock shows the effective use of cretonne as a trimming. It is fashioned on very simple lines that affect the much-liked chemise dress. The frock is made of orchid-colored gingham, although should you wish you might copy it in any other color that may be more becoming to yourself. It is fastened down the back with self-covered buttons. The deep border and flat collar are cut from cretonne which has a lavender and green grape design. The three-quarter sleeve is finished with a flaring cuff of the cretonne. A girle of bright green ribbon encircles the waistline.

Attacked by Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case, the relief afforded by Dr. J. D. Kellogg's Asthma remedy is very grateful. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

First Baby Travels to Paris.

Among the passengers on the Crodon-Paris aeroplane was a baby girl just 5 1/2 months old, who was going to France with her parents. This is the first baby in arms to travel by the Continental airway. Fieda Inglin, as she is called, lay quite contentedly in her mother's arms, and did not appear to be in the least frightened by the roar of the giant engines.

America has seven special "chapel railway coaches," each provides a home for the minister and his family, and has seating accommodations for 50 persons.

Wretchedness OF Constipation

Can Be Quickly Overcome by

CARTER'S LITTLE LIVER PILLS. Purely vegetable—act sure and gently on the liver. Relieve biliousness, headache, dizziness and indigestion. They do their duty. Small Pill—Small Dose—Small Price.

Outwitted.

Mother—These little playmates of yours look rather common, Bobbie. I hope none of them swear.

Bobbie—Oh, some of 'em try to, mother, but they ain't much good at it.—Life.

MONEY ORDERS

ASPIRIN

"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monocetacidester of Salicylic acid.

J. MILLER.

FAIRM FOR SALE BY TENDER--STONY PLAIN.

Tenders addressed to the Minister of Agriculture for the purchase of Northeast Quarter Section 24, Tp. 52, Rg. 28, West 4th, containing 160 acres more or less, are called for. These will be received up to noon of Saturday on October 15th next.

Terms of Sale are as follows:—Marked cheque for 25 per cent. of amount of offer to accompany tender, payment of balance to be made within ten days after notice of acceptance of offer, which should be mailed by registered letter. If tender is successful, possession to be given March, 1st, 1922. The right can be given to purchaser to do any rail plowing necessary. All straw and feed to be reserved. The highest or any tender not necessarily accepted.

For further particulars as to terms of sale, apply to the undersigned.
H. A. CRAIG,
Deputy Minister of Agriculture.
Dated at Edmonton, September 23rd, 1921.

TAX SALE.

SALE OF LANDS IN THE TOWN OF STONY PLAIN ALBERTA.
FOR ARREARS OF TAXES.

NOTICE IS HEREBY GIVEN that certain lands in the Town of Stony Plain in the Province of Alberta will be offered for sale, for arrears of taxes and costs on THURSDAY, the SEVENTEENTH DAY OF NOVEMBER, 1921, at 8 o'clock in the afternoon at the Town Hall, Stony Plain, unless before the time of said sale the arrears of taxes and costs shall have been paid.

A Printed list of the said arrears may be seen at the office of the Secretary-Treasurer, Stony Plain, and a list of the said lands was published in "The Stony Plain Sun" on September 16th, 1921.

DATED at Stony Plain this 15th day of September, 1921.
F. W. LUNDY,
Secretary-Treasurer
Town of Stony Plain.
